to the Polo Grounds yesterday, the majority hoping that the Senators would brace up and make at least a semblance of a contest. They were disappointed, however, for while the visiting players did well enough in the field, they were amateurish in the extreme when they faced the local pitcher, and five base-his was the best that they could do to help along their batting average.

Clark pitched a capital game, and it was not his fault that the 9 to 0 victory which went to Meekin's record on Tuesday was not duplicated, as Doyle's two errors in the seventh inning did much to give the Senators three runs, and prevented a shutout. Clark had excellent speed and good control of the ball, and he seemed equally effective when using either a fast or a speedy delivery. Burns, Fuller and Tiernan did some spiendid all around work, the changing of Fuller from the bottom to the top of the batting list having accomplished wonders for the hard-working, modest little fellow. Difficult running catches by Crooks and Abbey in the eighth inning were the prettiest fielding features of the day. The score: hoping that the Senators would brace up and make

Foote made only a fair showing against Chace, who smashed the Yale man's lobs with great effect, and kept him on the defensive most of the time by his clever net play. Foote managed to lay his hands on one set, however, by working Chace out of position and then passing him down the side lines.

The only match of the afternoon was between Wrenn and Stevens. When court had been formally opened, Assistant District-Attorney Taggart stated that in view of the character of the finding of the Coroner's Jury it would be necessary to submit the case to the Grand Jury. Miss Flagier's attorney, Mr. Perry, remarked that while the verdict of the Coroner's Jury was intended to be a complete exoneration of the crime it was technically a finding for manslaughter. He added that his client was in court and ready to furnish ball in any sum that might be demanded, Judge Cole stated that he had read the evidence taken at the inquest; that in his opinion the case was a ballable one, and that 10,000 would be sufficient. This was satisfactory to the Assistant District-Attorney, whereupon Messra. Cassel and Macfeely qualified as sureties.

General and Mrs. Flagler called upon Mr. Green, the father of the deceased lad, but Green preferred to say nothing about the case, and the call was limited to expressions of regret on the part of General and Mrs. Flagler at the unfortunate occurrence. It is reported this evening that the Sailing Committee have disqualified the Yampa in consequence of the protest entered by the owner of the Amphirite against the cup being given to the American yacht, in which it is charged that the latter had violated the fifth clause of the rules, which provides that when a yacht races in cruising trim no hands, other than a pilot, shall be carried in addition to the ordinary crew. The Y ps had extra hands on board, as did also the conia, but the latter put them on shore prior to the start. The result is generally regretted among yachtamen here, but the committee had no option in the matter.

TROUBLE IN THE CYCLE BOARD OF

WHEEL PATH ON GOVERNOR'S ISLAND-SHAFER DENIES THE STORY OF A RACING COMBINA-

TION-OTHER NOTES AND COMMENTS. A serious disagreement has arisen among the nembers of the Cycle Board of Trade, and a meeting was held in this city yesterday at the rooms of the Board of Trade to arrange for a settlement of the differences. The trouble has been caused by the fact that the promoters of the coming cycle show in Chicago seem disposed to run the show to suit themselves. If such a course is persisted in the chances are that the Board of Trade will formally withdraw its approval, which would mean the withdrawal of over ninety of the most promi-nent manufacturers of bicycles, parts and specialties in the country. There are those, none too friendly to the Board, who may enjoy making profit out of the present differences.

Those present at the conference yesterday were S. A. Miles, N. H. Van Sicklen and Walter Wardrop, three bright and outspoken young men of Chicago and A. G. Spaiding, W. F. Wilson, George R. Pope, W. A. Redding and A. Kennedy Childs, of the Board of Trade. The conference lasted nearly The conference lasted nearly three hours, and when it was over the serious looks on the faces of the delegates showed a great deal more than their words implied. At the conclusion of the conference it was announced for publication that the two committees would come to gether again in a few days to arrange all details for the Chicago show.

David Shafer, the manager of Sanger, denies most positively the story sent broadcast a few days ago that he was arranging a racing syndicate and that he proposed to make it lively for race-meet promoters, as he would have several of the fast-est riders in the country under his management. Shafer says that he knows entirely too much about cycling to do anything of the sort. The differences between Shafer and Eck are not likely to set the cycling world on fire.

The inhabitants of Governor's Island have joined The inhabitants of Governor's Island have join the rest of the world. A cycle path extends no all around the island, and the inhabitants of the little piece of ground in New-York Harbor a having a royal time. There was a number wheelmen using the path last night. The regul roadway forms part of the path, while the redents of the Island have built the rest themselv. It is said that there are several riders on the island who can make the circuit in three and a half minutes. The distance is over a mile.

Among the professional entries for the races at Manhattan Beach on Saturday are Sanger, Tyler, Wheeler, Porter, Baker, Berlo, Kuhlke, Slivie, Starbuck and Blauvelt.

Mackle's roadhouse on the Cycle Path in Brook lyn was almost destroyed by fire about 1 o'clock yesterday morning. About one-third of the build ing was burned down. There was no insurance.

The Kings County Wheelmen are getting settled in their new clubhouse. The next club road race will be held on August 17.

RAILROAD INTERESTS.

NORTHERN PACIFIC RECEIVERS.

JURISDICTION OF THE MILWAUKEE COURTS QUESTIONED. Brayton Ives, president of the Northern Pacific

Railroad, authorizes the following statement in regard to Northern Pacific affairs: "The statements published concerning the movement for the renoval of the Northern Pacific receivers have this basis of truth: Mr. Pettit, the general counsel of the company, has gone West to present the application to the various courts along the line of the road. The application is founded chiefly on the ground that the court at Milwaukes is without jurisdiction in the matter, not a mile of the road being in that district, and on the course of the receivers as shown by their records. If the order is granted the facts in the case will be made publi in due time." James McNaught, formerly counsel to Northern

Pacific receivers, says: "I have had nothing to do with the application before Judge Hanford to oust Northern Pacific receivers, but I do not nesitate to express my views of the question of jurisdiction. My views concerning the jurisdiction of the cours of Milwaukee are well known to Northern Facific receivers and their counsel. I have always taken the position that insomuch as there was no part of the Northern Pacific Railroad or land grant in the Eastern District of Wisconsin it was a great mistake to recognize the court of that jurisdiction over any of the properties in preference to the court of primary jurisdiction over the entire rail-road and land grant." GREAT NORTHERN'S AFFAIRS.

Chicago, Aug. 7.-In a reported interview with President J. J. Hill, of the Great Northern Railway, at St. Paul yesterday, Mr. Hill is represented as denying that the Northern Pacific deal is off, and as saying:

and as saying:

There are no negotiations whatever. That part is all over. The next thing to be done is for the Northern Pacific security-holders to reorganize their property. This they must and will do for themselves. After the reorganization is effected then comes whatever we propose to do. If we secure control of the Northern Pacific it will be because we have a right to it. We shall do absolutely nothing until the property is reorganized. Mr. Hill is also reported to have said that there was no truth in the report that he offered a guarantee of \$6,250,000 annual earnings to the Re-organization Committee of the Northern Pacific and that they demanded \$7,000,000.

The Commissioners decided that the competitors who received 50 per cent and over in a mental examination could come in again right away without further physical examination, and that those who received less than that would have to wait six months before they could make another application. In the cases of the men who failed to pass the medical examination the Board decided that if their rejection was due to some slight trouble they could apply again after six months, but if they were excluded for any physical defect they would be barred forever.
